"Retired USN Captain Scott is such an inspiration. His presentation was filled with profound insight and positive motivation. His anecdotes that preceded his success are a great encouragement to those of us who were not always go-getters." - **Terrance Burt, Rockwell Collins**

"It's been said that 'You can't please all of the people, all of the time', but our recent experience with Vicki Flier Hudson at our last Global Meeting leaves us to question how this statement could be possibly be applicable to her flawless presentation. Vicki gracefully delivered relevant information that would be useful in our day-to-day business interactions." -**Damali Noel-Lockett, Marketing Communications Manager, Arch Chemicals**

"Captain Winston Scott addressed our sales meeting attendees at the Kennedy Space Center in May 2018. The response from our attendees was universally positive! Dunbar, Sales Effectiveness Leadership Team Leader, Strategic Growth Partners**
